

Internet Conference Station X1-N6

Affordable Teleconferencing for Your Business.

Upgrade Your Online Meeting Instantly.

Award-Winning Design Delivers Outstanding Performance.

Designed exclusively for Internet conference calls, IPEVO's award-winning VoIP Conference Station combines excellent sound quality and unique design features to make Internet conference calls an effortless and productive experience. The X1-N6's elegant and functional design has also received the IF Product Design Award in Germany.

Exceptional Sound Quality Optimized for VoIP.

The 16KHz sampling rate (twice the rate of traditional PSTN network) of X1-N6's 16-bit Digital Signal Processor (DSP) achieves optimal balance between high voice quality and network performance. The full-duplex DSP also performs echo cancellation and background sound filtering for real-time and natural conversation free from interference or noise, coupling with a voice range of 5 meters.

The Shape & Texture of Form & Function.

The unique shape of X1-N6 provides convenient layout and easy access to its controls and functions. Providing 360 degrees of voice reception, the detailed metallic mesh completes X1-N6's unique and refined appearance, also weaving together key design features seamlessly for a professional finish that doesn't look out of place in the office. You also have the option of an audio input and output for any time you'd like to attach a headset for privacy.

Compatible with Most Internet Communication Applications.

Universally compatible with most Internet communication applications such as Skype, Google Talk, Windows Live Messenger (MSN), Yahoo! Messenger, AOL, iChat and VoIP systems (i.e. Microsoft Office Communicator, Avaya solutions, etc).

Frequently Asked Questions

What's in the Box?

- IPEVO X1-N6 Internet Conference Station
- USB Cable
- Quick Start Guide
- Comes with 1-Year Warranty

System Requirements

- Microsoft Windows® 7/Vista/XP
- Mac OS X 10.5 & above
- USB2.0 plug & play capability
- Broadband Internet Connection

Electrical Specifications

- **Operating Voltage:** 4.5 V - 5.5 V
- **Condenser Microphone:**
Omni directional
Sensitivity: -42 +/- 2 dB
Frequency Range: 20 - 20,000 Hz
- **Magnetic Speaker:**
Coil Resistance: 4 +/- 0.6 Ohm
Sound Pressure Level: 87 dB SPL @ 0.5m

Product Dimensions

- 28.7cm (L) x 28.7cm (W) x 5.3cm (D)
- Weight: Approx 580g

Does it work with Windows® 7 as well? What about Mac computers?

For sure. Since no driver installation is required, you can simply plug in the device and operate it immediately under any operation system.

Can I combine X1-N6 with a webcam to set up online video conferencing?

Absolutely. Combine X1-N6 with a webcam (like IPEVO's P2V Camera) for a even more realistic online conferencing experience.

How do I begin with teleconferencing?

Launch your teleconferencing or chatting software (e.g. Yahoo! Messenger, Windows Live Messenger, Skype etc) and connect the USB cable to your computer. Make sure the Power Switch is turned to 'On' and start talking.

What is the range of sound reception for X1-N6?

The highly sensitive microphone on X1-N6 will pick up sound from 360 degrees in a 5 metre radius, so you can move about freely and still carry on a conversation comfortably.

Product Overview

Skype's buzzing 24 hours a day, 7 days a week, worldwide. At peak periods, there are up to 23 million people online. What Skype can do is to connect business colleagues while saving time and money, and keep friends and families together, wherever they are in the world.

What Users Say?

International calls at no cost, doing business is even simpler.
- Wu Yihong, Chief Financial Advisor, Agenda

It went beyond my expectations when the X1-N6 evolved to become a communication tool for staff to share knowledge and improve camaraderie.
- Joyce, General Manager, Lawry's The Prime Rib (Taipei branch)

Be it its degree of quality stability or fixed price cost-effectiveness, the X1-N6 definitely fits the web conferencing budgets of most multinational enterprises.
- Cai Jinming, Engineer, Maxigen Biotech Inc. General Administration

The Internet Conference Station has overturned the culture and rules of traditional conferencing. It has rearranged the DNA of Internet applications.
- Wu Jianing, Deputy General Manager, CyberLink

This machine reduces the costs of traveling out of the office for meetings and increases opportunities for expanding markets. Using the right tool can bring about a win-win situation.
- Zhang Yunwei, Chief Operating Officer, Gemmy Planet

The most praiseworthy feature of this machine is its Plug-and-Play capability. There is no need to install any drivers or software. It is impossibly easy to use.
- Hao Guangcai, Publisher, Grimm Press
